Conductor Robert Wormoth was struck by a rock thrown by a striker, and the car man's nose was broken.

One car on its way to the barn late this afternoon was stalled by a barricade built across the track, and the car was completely wrecked.

Crowds formed during the day, but detachments of police dispersed them wherever they attempted to interfere with cars.

detachments of police dispersed them wherever they attempted to interfere with cars. Officials of the company persist in statements that the strike is the work of outside "bosses," who are not in the street-car service, and say that if protection is given the cars, there are pienty of employes remaining who will operate them.

The strike is strongly, backed by all unions in the city.

There were several incipient disturbances during the day, the most serious being in the outskirts of town wherein a couple of piaces the tracks were barricaded and two cars thrown over by the mobs.

The down town streets were thronged all the afternoon with curiosity seekers, but except attempts by an occasional gang of rowdies to pull trolley ropes the cars were not frequently molested. The street car company declares that only thirty-seven of the 675 employes failed to report for work today and is emphatic in the statement that it will have no difficulty in operating its cars if the municipal authorities will prevent a repetition of the excesses of boodlums which took place Saturday night.

IN THE HOUSE.

In the House, Monday will be devoted to the consideration of bills under an order providing for the suspension of the rules, and the rest of the week will be given to legislation pertaining to the District of Columbia and to the bill making appropriations for the conduct of Indian affairs.

There are twenty or thirty bills on the District of Columbia calendar which Mr Babcock, chairman of the District Committee, is very anxious to have passed, and the Committee on Rules has promised him sufficient time for their consideration. There also will be a strenuous effort to secure action on the Indian Appropriation Bill, and Chairman Sherman of the Indian Committee is very hopeful of success in that direction. If there should be time left, the Omnibus Claims Bill will be taken up.

trades and industries are bankrupt, and the masses are dispirited, and in a state of poverty.

Reports today from Czenstochowa, which is a typical Polish town, show that several so-called "terrorists" have been tried by drumhead court-martial and executed in the last two days. I the early part of the week, five "terrorists" were convicted and shot here, also three at Siedwicz, two at Maszow and one at Lomza.

These executions have been going on so constantly throughout Poland, generally that it has become almost superfluous to repeat the daily chronicle of military executions.

Altogether, despite the darkness of the present martial conditions, the situation has been somewhat relieved by new evide ces of the indomitable spirit of the Polish people asserting itself.

The capital stock of the United States Granite Pressed Brick Company represents a legitimate investment at home in the best-paying business in this or any other progressive section of the country. It is an industry absolutely without a feature of speculation, and in which the profits are enormous, practically earning 400 per cent. on the money it costs to install the plant. There is and always must be a demand for our pressed brick, which is the best made, the most economical to use and the handsomest in appearance. We can produce it for \$7 a thousand by our process, which is one-third the cost of producing the ordinary pressed brick. With the demand existing, and with a better brick, if it commanded only the regular market price, it must be seen that the investment is more profitable than any other offered.

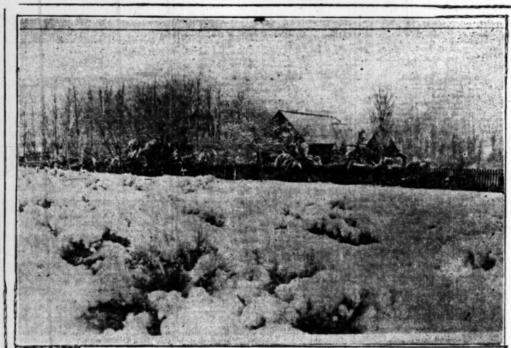

A block of 10 shares, par value \$10 each, costing \$60 today, will be worth not less than \$500 within a year, while returning a substantial dividend amounting almost to wages.

Disguised as Mechanic and Carries a Ladder.

Householders in University District Suffer.

Over a Thousand Dollars' Worth of Booty Taken.

In the garb of a carpenter a skillful porch climber has been working in the University sub-station district and has stolen at least \$1500 worth of jewelry and possibly much more, during the past four weeks.

paet four weeks.

Saturday evening R. D. Rivhards pursued the crook three blocks from his home, No. 2237 Hobart boulevard. In the same neighborhood, ten days ago, the thief got nearly \$1000 worth of gems from the residence of Mrs. Lucy Gale during the dinner hour. The police have concealed the facts.

The man carries a ladder over his shoulder. He places this at a side or rear window while the family is at dinner. Entering by this means, he loots the rooms of the upper floors. His first theft, four weeks ago, was given out by the police with a statement that they did not think it the work of a professional crook.

"Some one is putting up a ladder," she cried.
Richards ran from the room. Leaving the horse, he enrountered the burder descending the ladder. The man wore his usual blue jumper and cap. For a moment Richards believed that he must be a mechanic and thought there might nossibly be some mistake. "What are you doing there?" he demanded of the thief,

there might nossibly be some mistake. "What are you doing there?" he demanded of the thief.

THIEF IS PURSUED.

The latter made some unintelligible inswer just as he reached the ground. Then he ran swiftly. Richards followed hard at his he les. Unfortunately the nursuor had no revolver. He called loudly and neighbors came to join in the chase. They followed the burglar three blocks, when he dwhed late a vacant let and disarpeared in the darkness. I sareh was kent un for some time, but with no result. The University sub-station was southed and an officer was sent out to the Richards home.

Late Saturday night a prowier, possibly this same man, visited the home of W. H. S. Welch, No. 256 Western avenue. With a skeleton key he untocked the front door of the house and wert through the lower door, but got nething. He coolly looted the pantry of food and sat down to enjoy uniderlett luncheon.

White he was easting a housemald was swakened and stenned from her room into the hall. Anparently this alarmed the intruder, for he fied Yesterday morning the family found the front door one and the remains of the burglar's luncheon.

And lo, ere his journey onded, his wagon was heaped high and he had to stand on top of the load to keep all the unsold Examiners in place. And oh how poor Uncle Heine would have cursed his soul had he seen the young man striving not to lose those accusing returning copies. "Lose 'em; go on. Thieves, who use an express wagon to carry away their loot, are plundering the downtown district. With the report of a wholesale theft of juties acking from a second-hand store late subsequent operations have alarmed residents along Western avenue and Hobart boulevard. The police are apparently baffled. In spite of a stricter watch on local pawnshops than has been kept during the past two years no trace of the loot has been gotten and it is believed that the crook ships it to some eastern "fence."

THIS FELLOW ORIGINAL.

The boldness of the man's work and his unusual method have made many wealthy householders in his aristocratic working ground efraid. Usually a "second story worker," or porch climber, contents himself with the aid of a plazza pillar in gaining access to a herne and trusts to his own elusi 'veness when it comes to avoiding observation. Not so however, if it his crook, His blue workingman's jumper and workworn trousers and his ladder all help to divert susnicion from him.

The Gale robbery was a fair sample of his work. Mrs. Gale lives at No. "760 Wostern avenue. The family was dining. Evidently the crook had watched the house from some vantage ofnt and had learned this. He slipped to the root of the porch. He mounted the ladder, forced open a what the control of the porch while the process of the ladder to the root of the porch. He mounted the ladder, forced open a what the process of the ladder and searched the ladder of the root clothing, a jewel log and diamonds. With his arms full of plunder, he climbed down the ladder and went to a vacant lot. There he drooted the ladder and searched the clothing which he cast aside along with a number of articles of minor value.

KNOWS GOOD THINGS.

In this excursion the crook secured two large solitaire diamond rings, an amethyst ring, a gold watch, \$15 in cash, and a jewel box full of helplooms, including several old and valuable brooches.

Ancerently the "second story man" liked this neichborhood, for he visited it again Saturday evening. During this trin he encountered a bit of excitement and raised an alarm. R. D. Rich-rards heard a neculiar scranding sound in the wall of the house. She listened. The man and raised as a second time the ladder." MIDWINTER NUMBER.

The Midwinter Number of The Times, to be published on January 1, will fully sustain the reputation earned by these apscial numbers of The Times, during the past twenty years. It will contain a mass of reliable information concerning Los Angeles and Southern California, presented in attractive, readiable form. The number will consist of six or seven bound magazine parts, similar in form to the Sunday Times Magazine, aggregating over 200 pages, with a special part devoted to Arizona and Sonora, in addition to the regular news sheets. There will be fifty full-page illustrations.

It is unnecessary to say that this is an exceptional opportunity for advertisers deairing to reach the eyes of the thousands of people east of the mountains, who are hungry for information about Southern California. No display advertisements for the Midwinter Number can be received after December 27.

This is a gain of about \$90,000 over the output for 1904, and the largest yield of our gold mines since 1883, when they were credited with upward of \$24,000,000. But for the twenty years following 1883 the gold yield of California had but three times exceeded at \$19,000,000, so it will be seen that mining the yellow metal is now about as important an industry in this State as at any time for a long period. Of course, however, it can never reach the great production of the "early days," when in a single year (1852) the placer's vielded upward of \$81,000,000, according to Mr. Yale's table.

California gold mining was at its lowest ebb in 1889, when the yield was but little more than \$11,000,000. The sains of late years have been due chiefly to the rise of dredge mining, which will increase its output for a number of years to come.—[Sacramento Bee.

A Beautiful Country.

A philanthropist recently sent a child from the New York slums ta the country. To this child, raised among slum horrors, says the Boston Record, all the beauty and poetry of a pastorial life was offered. The philanthropist expected to give the youngster an esthetic education.

The other day the man went to see this charse. She is a little girl. He took her on his knee, glanced with approbation about the quaint old farm kitchen and said:

"And do you find the country very beautiful, my dear?"

"Oh, beautiful, my dear?"

"Oh, beautiful, wo dear?"

"And what have you seen during the week's sojourn here?"

TUT LOOSE FROM HALL.

Wanted Skipper Is Deserted on Lower California Coast by Women.

(BY DIRECT WIRE TO THE TIMES.) SAN DIEGO, Dec. 16.-[Exclusive Dispatch.] News from Capt. A. W. Hall of the Schooner Rover, who is wanted here on a charge of kidnaping Dora Bennis, a 14-year-old daughter of Marco Bennis, arrival of the yawl American, Capt. Robt. Israel.

Israel reports finding Capt. Hall at San Domingo, 450 miles down the Lower California Coast. Hall told him that while he was at the customhouse the women, Dora Bennis and Emma Howesder and the and Emma Howesder and the engineers supposed to be the husband of Emma Howesder, had put to sea in the Rover, leaving a note stating their inleaving a note stating their in-

leaving a note stating their intentions of deserting Hall.

This was on December 7, and the schooner had only gasoline sufficient to carry her thirty-five miles, and provisions for less than forty-eight hours. Israel granted the request of Hall for passage to Ensenada on the American. Upon arrival there he set Hall ashore. Deputy United States Marshal, Place, of this city, is trying to secure ifrom Governor Pardee the necessary papers for Hall's arrest and transfer here.

It is understood that Hall is not formally under arrest. Israel says it was his intention to secure a launch and sail for Hall for Titus, son of Harry L. Titus,

MEN, Read Our Guarantee We cure Varicocele, Hydrocele, Specific Blood Poison, Stricture, Piles, Kidney and Bladder Diseases, and all complicated and Chronic Diseases of MEN ONLY, under an absolute guarantee to cure or return the money.

Strictly Reliable

Every case of contracted disorders we treat is thoroughly cured. Our patients have no relapses. When we pronounce a case cured there is not a particle of infection or inflammation remaining, and there is not the slightest danger that the disease will return in its original form or work its way into the general system. No contracted disease is so trivial as to warrant uncertain methods of treatment, and we specially solicit those cases that other doctors have been unable to cure.

Functional Decline—Weakness

The success we have had in restoring functional derangement has been a great surprise to many who have met with failure in former treatment. It's the right treatment applied in the right way that brings the satisfactory results. By our direct method all inflammation is removed and free, healthy circulation is established.
